

Enabling 2-Factor Authentication (2FA) on Warriormail

1. Login to your Warriormail account
2. Click on your initial (in the top right-hand side of screen) and select Manage your Google Account
3. Click on Security (on left side of screen)
4. You will see at the bottom of the “Signing in to Google” section, the 2-step Verification by default, may be set to “Off”. Click on the off button or click the right facing arrow.

Signing in to Google

Password Last changed Apr 10, 2015 >

2-Step Verification Off >

5. Read what 2-step verification does and click “Get Started”

Protect your account with 2-Step Verification

Each time you sign in to your Google Account, you'll need your password and a verification code. [Learn more](#)

 Add an extra layer of security
Enter your password and a unique verification code that's sent to your phone.

 Keep the bad guys out
Even if someone else gets your password, it won't be enough to sign in to your account.

[GET STARTED](#)

6. Users will need to sign in again into Warriormail.
7. Enter your mobile phone number you will use to verify account activity
8. Choose “Text message”

Let's set up your phone

What phone number do you want to use?

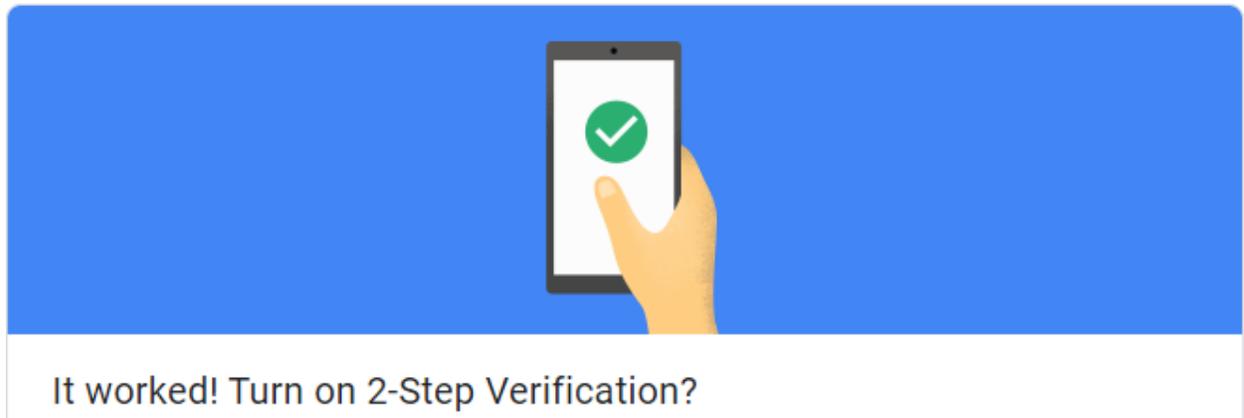

Google will only use this number for account security.
Don't use a Google Voice number.
Message and data rates may apply.

How do you want to get codes?

Text message Phone call

9. You will receive a code via text message. Enter the code to continue enabling 2FA. If you did not receive a code, click Resend.
10. Click Next
11. You will see this screen.....

12. Finish the 2-step Verification by clicking on "Turn on" at the bottom of this box.

Congratulations, you are all set!! Anytime you log into your Warriormail account, a code will be sent to your mobile phone. This helps protect your account from unauthorized access by other users.

**NOTE: RLC will require all Warriormail account enable 2FA (2 Factor Authentication) beginning March 1, 2022.*
